PROFESSIONAL EXPERIENCE

Accruent, New Orleans, LA — Software Engineer I

04/2018 - PRESENT

Engineer of the Quarter, Q4 - 2018

In an Agile team of 8, lead the team through multiple development epics, exceeded expectations by acclimating swiftly to the tech stack, and while on triage rotation, investigated and developed solutions for severity issues.

Operation Spark, New Orleans, LA — Teacher's Aide

02/2018 - 04/2018

Assisted with students in the Javascript Fundamentals Bootcamp.

Vieux Carre, New Orleans, LA — Front of House

11/2015 - 10/2017

Delivery as well as handled most Front of House interactions.

EDUCATION

Operation Spark, Advanced Software Engineering Immersive Program, New Orleans, LA

10/2017 - 02/2018

PROJECTS

ClassMate — Product Owner

An interactive platform to extend teacher and student communication

- Developed an easily scalable relational database with Sequelize
- Assisted with design of Front-End using React Native Elements
- Set up all routes from our separated Front-End and Back-End

Swappr — Software Developer

Intuitive item trading application designed for one to one trades

- Built upon and enhanced an inherited Vue2.0 UI/UX experience
- Expanded PostgreSQL database to accommodate new data-sets
- Implemented an image upload feature using Cloudinary
